**Biofrontera AG** (AIM/FSE: B8F, ISIN DE0006046113) is a biopharmaceutical company specialising in the development and distribution of dermatological drugs and medical cosmetics for the treatment and care of skin diseases. Biofrontera's main product is **Ameluz<sup>®</sup>**, a prescription drug approved for use in Europe for the treatment of mild to moderate Actinic

## News Release

Keratosis (superficial skin cancer) by photodynamic therapy (light therapy). Biofrontera is the first small German pharmaceutical company to receive a centralized approval for a drug developed in-house. The Company is looking to further develop Ameluz<sup>®</sup> for use in Basal Cell Carcinoma and is currently progressing through regulatory approvals to sell the product in other territories, in particular the largest pharmaceutical market, the USA.

In addition, the Company markets the **Belixos<sup>®</sup>** cosmetic series with plant extracts, currently available in cream and liquid formulations which offer nurturing and regenerating effects for people suffering from pruritus, dry skin or chronic ailments such as eczema or psoriasis.

Biofrontera group was founded in 1997 by Prof. Dr. Hermann Lübbert, the CEO, and is headquartered in Leverkusen, Germany.
